EDUCATION

Hult International Business School	Dubai, UAE
Master of Business Administration (MBA)	2017
Mumbai University	Mumbai, India
B.Sc. Computer Science	2014

EXPERIENCE

Acme Corp	Dubai, UAE
Senior Product Manager	Jan 2022 -- Present
- Own the full product roadmap for the core trading platform serving 50,000+ monthly active users across 12 markets. - Shipped 14 major features in 18 months, including a real-time risk engine that reduced customer churn by 22% within two quarters. - Lead a cross-functional team of 8 (engineering, design, data science); introduced weekly roadmap reviews that cut delivery slippage from 40% to 9%. - Promoted from PM to Senior PM in 2024 after leading the launch of the enterprise tier, which generated \$2.4M ARR in its first year.	

Tech Co	Dubai, UAE
Product Manager	Mar 2019 -- Dec 2021
- First PM hire; established the product practice from scratch including discovery cadence, roadmap process, and stakeholder alignment rituals. - Led customer discovery for a B2B integration product, conducting 80+ interviews across enterprise and mid-market segments. - Shipped MVP in 6 weeks; the product became 30% of total company revenue within 18 months of launch.	

Consulting Firm	Mumbai, India
Product Analyst	Jun 2017 -- Feb 2019
- Built data infrastructure for product analytics across 5 client portfolios using SQL, Python, Looker, and Mixpanel. - Delivered executive dashboards that reduced time-to-insight for product decisions from 2 weeks to 2 days.	

PROJECTS

JobPilot — Stealth Job Application Agent	github.com/aa2149/jobpilot
Python, FastAPI, Playwright, Gemini API	2026
- Built a production-grade Greenhouse form-filling agent with stealth browser, LLM-powered open-ended question responses, and an 8-archetype fit-intelligence layer. - Shipped REST API (POST /apply, /batch, /score), a 7-step React onboarding funnel, and a personalised Excel tracker delivered per application batch.	

TECHNICAL SKILLS

Product:	Roadmapping, customer discovery, A/B testing, OKRs, stakeholder management, 0-to-1 product development
Tools:	Figma, Jira, Notion, Amplitude, Mixpanel, Looker, Tableau
